

CAREER ROADMAP:

Design & Construction

Description of Field:

Design, construction, planning and architecture are vibrant fields with careers for entry level and advanced degree holders. This field has opportunities in a variety of environments including private firms, governmental agencies and non-profit business.

General Skills:

Design and construction may require a variety of specific and transferable skills. Sample skills can include: critical thinking, analytical skills, communication and interpersonal skills and problem solving skills.

Insider Advice:

Advanced positions in architecture and planning fields require advanced degrees. UF offers options for students to transfer into some programs at the undergraduate level. Additionally, many undergraduate majors allow students to enroll in graduate programs to complete their education. Explore flexible interdisciplinary programs such as the sustainably and the environment major and the urban planning minor. Gain experience volunteering, shadowing and interning. Explore opportunities early through local professional organizations and your network.
